

More than photo prints – pieces of art

Fujifilm challenges your creativity and introduces new Fujicolor Crystal Archive Professional Textured Paper Linen and Leather –

a creative addition to our professional product offering. These color papers feature heirloom silver halide emulsion technology and come with a professional coating and a unique, premium leather-like and linen surface design.

What you'll love about it: No matter what you choose, these two new photo papers turn your photo prints into unique, unseen pieces of art. The leather-like surface design offers you a masculine, "strong" and sensual look and feel.

Textured Paper Linen comes with a delicately structured surface that does not disrupt the image, adding a high-quality and extraordinary touch to your photos.

This is photo paper beyond standard – this is creativity surpassing your expectations.
