

Resists extreme conditions to preserve your photos

Fujifilm presents the most resilient photo paper in our photo paper range – Fujicolor Crystal Archive Premium HDX Paper X-tra Coat.

The Premium HDX paper incorporates the high-definition silver halide emulsion technology. The special X-tra coat layer prevents the development of a sticky surface at high humidity and high temperatures.

What you'll love about it: This photo paper will “X-tra” surprise you: its special surface withstands high humidity and resists other extreme environmental conditions. Thus, it protects your photos and guarantees excellent image stability. And if some moments need to hold fast: the paper’s standard base is perfect for fast lay-flat album production. This premium paper will never fail to “X-tra” please you.
